

## Activate the Integration Suite capability, event (EMIS)

Explanation	Screenshot
<p><b>i</b></p> <p>The event triggered by the SAP S/4HANA cloud public edition should be sent asynchronously to the SAP Integration Suite, Event Mesh. The event is stored in a queue there. Therefore, the SAP Integration Suite, Event Mesh must first be activated.</p> <p><b>i</b></p> <p>In this demonstration, you will see how to activate the Integration Suite capability, Event Mesh (EMIs).</p> <p>1. Choose <i>Instances and Subscriptions</i>.</p>	 <p>The screenshot shows the SAP BTP Cockpit interface for a subaccount. The 'Instances and Subscriptions' section is highlighted with a yellow circle and a '1' in a yellow circle. The subaccount overview shows 51 Entitlements and 3 Instances and Subscriptions. Below this, the 'Cloud Foundry Environment' section is visible, and the 'Entitlements' section is partially shown.</p>
<p>2. Choose <i>Integration Suite</i>.</p>	 <p>The screenshot shows the 'Instances and Subscriptions' page in SAP BTP Cockpit. A table lists applications subscribed to the subaccount. The 'Integration Suite' application is highlighted with a yellow box and a '2' in a yellow circle. The table has columns for Application, Plan, Changed On, and Status. The 'Integration Suite' row shows a 'standard_edition' plan, a 'Subscription' status, and a date of '2 Jan 2025'.</p>

Explanation	Screenshot
<p>3. Choose <i>httpscl900.accounts.ondemand.com</i>.</p>	
<p>4. Select the scroll bar to scroll down.</p>	
<p>5. Choose <i>Manage Capabilities</i>.</p>	

Explanation	Screenshot
<p>6. Choose <i>Add Capabilities</i>.</p>	
<p>7. Select <i>Manage Business Events</i>.</p>	
<p>8. Choose <i>Next</i>.</p>	

Explanation	Screenshot
<p>9. Choose <i>Activate</i>.</p>	
<p>10. Choose <i>OK</i>.</p>	
<p><b>i</b> The Event Mesh capability is activated in the SAP Integration Suite. However, the SAP Integration Suite, Event Mesh cannot yet be used as the required authorisations are missing. These will be assigned in a later step.</p>	

Explanation	Screenshot
<p> You have seen how to activate the Integration Suite capability, Event Mesh (EMIS).</p>	 <p>The screenshot displays the SAP Integration Suite dashboard. On the left is a navigation menu with options: Home, Discover, Design, Test, Configure, Monitor, Analyze, Engage, Monetize, and Settings. The main content area features two summary cards at the top: 'Based on API Proxy Calls' showing 0 Total Calls with a legend for Success (blue) and Failed (orange), and 'Based on number of failure' showing 0 Total API Proxy Errors with a 'No items available' message. Below these are three capability cards: 'Manage APIs' (Discover APIs, Configure APIs), 'Manage Business Events' (Configure Events, Monitor Events), and 'Extend Non-SAP Connectivity' (Discover Connectors, Create Connectors). A 'Manage Capabilities' card is also present. At the bottom, there is a 'Resources' section with links for 'What's New', 'Documentation', 'Learn More', and 'Community'.</p>
